

PERSONALIZED
MEDICINE COALITION

MEMBERSHIP PROSPECTUS

The Personalized Medicine Coalition, representing innovators, scientists, patients, providers and payers, promotes the understanding and adoption of personalized medicine concepts, services and products to benefit patients and the health system.

PARADIGM SHIFTS, ESPECIALLY IN MEDICINE, DO NOT HAPPEN JUST BECAUSE THE SCIENCE AND NEW TECHNOLOGIES SUGGEST THEY SHOULD.

Based on this assumption, some 20 institutions launched the Personalized Medicine Coalition in 2004 to develop a new medical paradigm that links treatment decisions to diagnostics.

Believing in an ecosystem of shared value across the multiple stakeholders it represents, the Coalition advocates for changes that will increase investment in personalized medicine and facilitate its clinical adoption so that both patients and health systems will benefit from improved health care and increased efficiency.

WHAT IS PERSONALIZED MEDICINE?

Personalized medicine is an evolving field in which physicians use diagnostic tests to determine which medical treatments will work best for each patient or use medical interventions to alter molecular mechanisms that impact health. By combining data from diagnostic tests with an individual's medical history, circumstances and values, health care providers can develop targeted treatment and prevention plans with their patients.

PMC WORKS TO ENSURE THAT POLICIES AND PRACTICES IN THE PUBLIC AND PRIVATE SECTORS PAVE THE WAY FOR PERSONALIZED MEDICINE.

Based in Washington, D.C., PMC works closely with health systems, lawmakers and agency officials to advance strategic priorities in three areas:

- **Education:** To raise the profile and scope of personalized medicine, PMC proactively educates decision-makers and patients about how the field can make health systems more effective and efficient by targeting better treatments to only those who will benefit.
- **Advocacy:** To help facilitate the development of personalized medicine tests and therapies, PMC engages policymakers to advocate for continued investments in biomedical research as well as modernized regulatory, coverage and payment policies that support access to personalized medicine.
- **Evidence Development:** To encourage the swifter adoption of personalized medicine by payers and health care providers, PMC helps build the evidence base necessary to demonstrate the clinical and economic value of personalized medicine.

“Personalized medicine is transforming the practice of medicine, and PMC is playing a critical role in bringing together all of the stakeholders to help make that happen.”

– Raju Kucherlapati, Ph.D., Paul C. Cabot Professor of Genetics, Harvard Medical School

PMC MEMBERS ARE LEADING THE MOVEMENT TOWARD PERSONALIZED MEDICINE TO BENEFIT PATIENTS AND HEALTH SYSTEMS AROUND THE WORLD.

MEMBER COMMITTEES/WORKING GROUPS

- **Public Policy Committee**
 - Patient Advocacy Organization Working Group
 - Pharmaceutical and Diagnostics Working Group
- **Science Policy Committee**
 - Health Care Working Group
 - Value Assessment Working Group
- **Ad Hoc Working Group**
 - Health Data Working Group
 - Pharmacogenomics Working Group

MEMBER BENEFITS

**Contact
2,000+**

leaders in personalized medicine via PMC's member database

**Interact with
200+**

thought leaders from Congress, FDA, CMS and the private sector at member meetings and events

**Save
40%**

on registration for the *Annual Personalized Medicine Conference*

Attend Member Meetings and Events

at no charge

Discounted Subscription Offers

for outlets including *GenomeWeb*, *STAT*, and *The Journal of Precision Medicine*
